Education

Bachelor of Technology (B.Tech) – Computer Science 2023 – 2027
GL Bajaj Group of Institutions, Mathura

Higher Secondry Certificate – PCM 2022 – 2023
CV International School, Agra

Secondry School Certificate 2020 – 2021
CV International School, Agra

Technical Skills

- **Languages:** C++, JavaScript, Python
- **Frontend:** HTML, CSS, JavaScript, React, Tailwind
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, MySQL, SQL
- **AI/ML:** Python, Machine Learning Fundamentals, Computer Vision, YOLO, LLMs, NER
- **Systems:** Linux, Operating System, Computer Networks, HTTP/HTTPS
- **Tools:** Git, GitHub, Docker, VS Code, Postman
- **Core CS:** Data Structures & Algorithms, OOPs, DBMS, Computer Networks, REST APIs, CRUD Operations

Projects

Vayalum – AI-Based Farmer Assistance Platform GitHub
Python, Flask, Twilio, SQL

- Developed an AI-powered farmer support platform providing agricultural guidance through voice calls and SMS.
- Integrated crop disease detection using image uploads and AI-driven recommendations.
- Built scalable Flask APIs to process user queries and manage multimedia data efficiently.
- Designed backend workflows for farmer record management and AI-based recommendation delivery.

Real-Time Collaborative Code Editor GitHub
React, Monaco Editor, Yjs, Socket.IO

- Developed a real-time collaborative code editor enabling multiple users to edit code simultaneously.
- Integrated Monaco Editor to provide an IDE-like coding experience with syntax highlighting and code intelligence.
- Implemented real-time synchronization using Yjs CRDT to maintain consistent editor states across clients.
- Used Socket.IO for low-latency communication and live updates between connected users.
- Built shared editing rooms with username-based sessions to support collaborative coding.

Civic Issue Reporting System — Full Stack Web Application GitHub
React, Node.js, Express.js, MongoDB, Docker

- Built a MERN-based civic issue tracking platform enabling users to report and monitor public issues.
- Designed RESTful APIs for issue creation, retrieval, and status management.
- Implemented MongoDB-based structured issue storage with timestamp tracking.
- Dockerized the application for consistent development and deployment environments.

Coding Practice

- Solved 500+ Data Structures & Algorithms problems across LeetCode and coding platforms.
- LeetCode Max Rating: 1505
- Strong understanding of arrays, hashing, recursion, graphs, trees, dynamic programming and bit manipulation.

Achievements & Certifications

- Completed **CCNA: Introduction to Networks** – Cisco Networking Academy
- Completed **Introduction to Cybersecurity** – Cisco Networking Academy
- Completed **Python Essentials 1** – Cisco Networking Academy / Python Institute
